

**Coming Soon...**  
**Changes to the ScotiaConnect® Electronic Banking**  
**Wire Payment Service**

In addition to the overall enhancements that are being introduced for the ScotiaConnect Electronic Banking platform, in May 2007 we will also be making enhancements and adding new features to the Wire Payments Service.

**When will these enhancements and new features be available?**

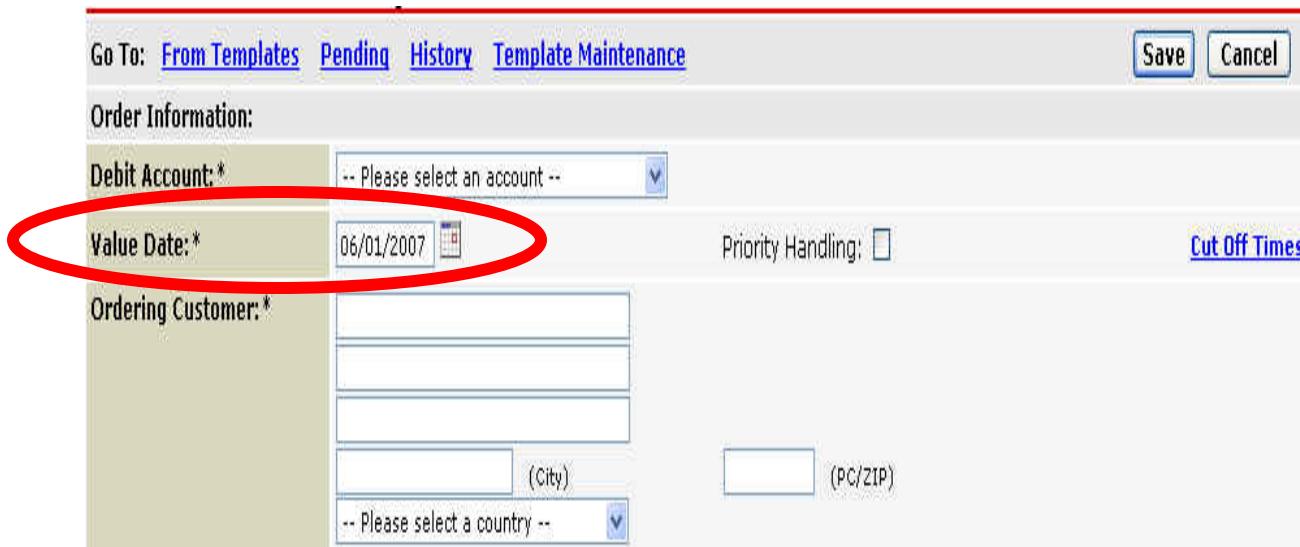

You will see changes to the Wire Payments Service effective May 7<sup>th</sup>, 2007.

**What's changing?**

***Value Date/ Execution Date fields***

Currently on the 'Wire Payment' entry page, the 'Execution Date' (the day the Bank will act upon your wire payment instruction) must be entered and the system calculates the 'Value Date' (the day the beneficiary should receive value for the payment) based on the amount, currency and destination of the payment.

Effective May 7<sup>th</sup>, to make it easier to indicate when the beneficiary should receive funds, you will enter the 'Value Date', rather than the 'Execution Date'.

The screenshot shows a web-based form for a wire payment. At the top, there are navigation links: 'From Templates', 'Pending', 'History', 'Template Maintenance', 'Save', and 'Cancel'. Below this is a section titled 'Order Information'. The 'Debit Account' field is a dropdown menu with the placeholder 'Please select an account'. The 'Value Date' field is a text input box containing '06/01/2007', with a calendar icon to its right. This 'Value Date' field is circled in red. To the right of the date input is a 'Priority Handling' checkbox and a link 'Cut Off Times'. Below the date input is a section for the 'Ordering Customer', which includes fields for name, address, city, province, and country. The 'Country' field is a dropdown menu with the placeholder 'Please select a country'.

If the requested 'Value Date' cannot be met based on our standard cut-off times, the system will display an error message.

The 'Execution Date' of your payment will be displayed for your information on the 'Create Wire Payment Confirmation' page when your payment is saved.

**Creation Successful.**

Wire Payment has been successfully created, Reference # - 7000595.

**Create Wire Payment Confirmation**

[Done](#)

**Order Information:**

Debit Account: Your Debit Account Here

Value Date: 06/01/2007

Priority Handling

Execution Date: 06/01/2007

Ordering Customer: Your Company Name and Address Details Here

**Payment Details:**

Payment Amount: 45,000.00

Payment Currency: USD

Debit Amount: 63,675.00

Debit Currency: CAD

Rate: 1.4150

Rate Reference:

**Beneficiary Information:**

Beneficiary Name: ABC Company

Beneficiary Address: 123 Main Street  
Toronto  
Canada

**Beneficiary Bank Information:**

Beneficiary Account: 1234567

IBAN

Beneficiary Bank: Toronto-Dominion Bk  
1 King St W  
Toronto M5H 1A1  
Canada  
Bank/Transit: 00415042

For information on cut-off times, please refer to 'How to Send Payments on Time' in the User Guide, available under the 'Help' link on the ScotiaConnect Electronic Banking home page.

### **Priority Handling (New)**

A new 'Priority Handling' option is being introduced for the Wire Payments service.

If you subscribe to this new function, you will have the option to flag your time-sensitive payments for priority handling.

Go To: <a href="#">From Templates</a> <a href="#">Pending</a> <a href="#">History</a> <a href="#">Template Maintenance</a>		<a href="#">Save</a> <a href="#">Cancel</a>
<b>Order Information:</b>		
Debit Account:*	-- Please select an account -- <input type="button" value="▼"/>	
Value Date:*	06/01/2007 <input type="button" value="Calendar"/>	Priority Handling: <input type="checkbox"/> <a href="#">Cut Off Times</a>
Ordering Customer:*	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> (City) <input type="text"/> (PC/ZIP) -- Please select a country -- <input type="button" value="▼"/>	

If you flag a payment for priority handling, you can request a Value Date that is earlier than our standard cut-off times allow. The payments will receive priority handling and, on a best efforts basis, the beneficiary will receive the payment on the requested Value Date.

*Note: Only same currency payments can be flagged for priority handling.*

For information on how to subscribe to this function and the associated fees, please contact your Scotiabank Relationship Manager.

### **Bank Search**

To make it easier to enter Beneficiary Bank information, you will be able to search for a beneficiary bank **directly** on the 'Create One-Time Wire Payment' and 'Create Wire Payment Template' pages. A dropdown list for the Bank ID will be added to the page that will include the following options:

- A) SWIFT/BIC**
- B) ABA**
- C) Bank/Transit**
- D) Bank Name/Address**

Beneficiary Bank Information:

Beneficiary Account:	<input type="text"/>	IBAN: <input type="text"/>
Beneficiary Bank:*	<input type="text" value="-- Please select a Bank Id --"/>	<input type="button" value="Search"/>
Optional Information:	<input type="text" value="-- Please select a Bank Id --"/> SWIFT/BIC ABA Bank/Transit Bank Name/Address	
Information to Beneficiary:	<input type="text"/>	

If you select **SWIFT/BIC, ABA or Bank/Transit**, you will be able to enter a corresponding code and click the **Search** button. If there is a match, the results will be displayed on the wire payment entry page. If there are no matches or multiple matches, you will be directed to the 'Bank Search' page with the results displayed on the lower portion of the page. From the 'Bank Search' page, you will also be able to search for bank information exactly as you do today.

If you select **Bank Name/Address** and click **Search**, the 'Bank Search' page will be displayed allowing you to enter Bank Name and Address information to search for matching entries, just as you do today.

### ***Cross Currency Payments***

To improve system performance, we are modifying the process for entering cross currency payments and foreign exchange rates.

#### One Time Wire Payments

When creating a One Time Wire Payment, the payment currency defaults to the currency of the debit account selected. Currently, a drop-down list is available to select an alternate currency for the payment. When we introduce the system changes on May 7th, there will be a new button on the page labelled **Cross Currency**.

Payment Details:

Payment Amount:*	<input type="text" value="100000.00"/>
Payment Currency:	CAD
	<input type="button" value="Cross Currency"/>

To enter a cross currency payment, you can click this button to access the 'Create One Time Wire Payment – Cross Currency' page. On this

page you can select a payment currency, enter foreign exchange rate information and continue entering any additional payment details as required.

A **Same Currency** button will be available to return to the same currency 'Create One-Time Wire Payment' page.

Payment Details:

Payment Amount:*	100000.00
Payment Currency:*	<input type="button" value="-- Please select a Currency --"/> <input type="button" value="Same Currency"/>

#### Wire Payments from Templates

Since the payment currency is defined when a payment template is set up, the new **Cross Currency** button will not be displayed when you are entering a wire payment using a template.

#### Entering Foreign Exchange Rate Information

Currently the FX rate for 'under bulletin' payments is automatically displayed on the 'Create One Time Wire Payment' page. Effective May 7th, you will indicate how the foreign exchange rate information will be provided by selecting the appropriate radio button:

Rate Information:		
Get Automated Rate:	<input checked="" type="radio"/> See <a href="#">Rates Inquiry</a> for Automated Rate limits.	
Enter a Pre-Booked Rate:	<input type="radio"/>	Rate: <input type="text"/>
		Rate Reference: <input type="text"/>

#### 1) Get Automated Rate

This option will only be available for payments that are under the bulletin limit. If this option is selected, the system will automatically provide a system generated foreign exchange rate. There will be a link next to this field to a 'Rates Inquiry' that will provide the Automated Rate (Bulletin) limits.

#### 2) Enter Pre-booked Rate

This option must be selected for payments that exceed the bulletin limit.

**Note:** The bulletin limit is the maximum value for which the Bank will automatically provide a foreign currency rate. For any transaction above the bulletin limit a rate must be booked.

**Note:** If you have been set up to have Scotiabank book foreign exchange rates on your behalf, you will not have the option to indicate how the rate information will be provided. The 'Get Automated Rate' and 'Enter a Pre-booked Rate' options will not be displayed.

### **FX Rate Confirmation Page (New)**

Effective May 7th, 'under bulletin' foreign exchange rates will not automatically be displayed on the 'Create Wire Payment' pages. To use the system-supplied rate for an 'under bulletin' payment, you may select the 'Get Automated Rate' option (as described above).

When you have finished entering your wire payment details and you click **Save**, you will be presented with a new page entitled 'FX Rate Confirmation'.

FX Rate Confirmation		Need Help?
		<input type="button" value="Accept"/> <input type="button" value="Cancel"/>
Rate Acceptance Expiring Indicator: <div style="width: 100px; height: 10px; background-color: blue; display: inline-block;"></div> 66%		
Payment Amount:	45,000.00	
Payment Currency:	USD	
Rate:	1.41500000	
Debit Amount:	63,675.00	
Value Date:	06/01/2007	
Debit Account:	Your Debit Account Here	
Debit Currency:	CAD	

This page will display details of the FX rate that will be applied to your payment. You will have 30 seconds to click **Accept** to accept the rate and continue saving your payment or **Cancel** to return to the 'Create Wire Payment' page.

## **Large Value Transfer System (LVTS) Flag (New)**

The 'Domestic LVTS Straight Through Payment' flag that is currently displayed on the 'Create One Time Wire Payment' and 'Create a Wire Payment Template' pages will no longer be required. Payment Confirmation Reference Numbers (PCRNs) will automatically be displayed on the 'Wire Payment History' for all Canadian dollar domestic payments to LVTS participants.

### ***Link to View Cut-Off Times (New)***

A new link will be available on the 'Create Wire Payment' pages to view the cut-off times for processing wire payments.

Go To: [From Templates](#) [Pending](#) [History](#) [Template Maintenance](#)

[Save](#) [Cancel](#)

**Order Information:**

Debit Account:*	<input type="text" value="-- Please select an account --"/>		
Value Date:*	<input type="text" value="06/01/2007"/> 	Priority Handling: <input type="checkbox"/>	<a href="#">Cut Off Times</a>
Ordering Customer:*	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> (City) <input type="text"/> (PC/ZIP) <input type="text"/> -- Please select a country -- 		

## ***Beneficiary Account/IBAN field update (New)***

A new radio button will be available to indicate whether the information you are entering in the 'Beneficiary Account' field is an 'IBAN'.

<b>Beneficiary Bank Information:</b>	
<b>Beneficiary Account:</b>	<input type="text"/>
<b>Beneficiary Bank:</b> *	<input type="text"/> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> -- Please select a Bank Id -- </div> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> -- Please select a Bank Id -- </div> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> SWIFT/BIC </div> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> ABA </div> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> Bank/Transit </div> <div style="border: 1px solid #ccc; padding: 2px; margin-top: 5px;"> Bank Name/Address </div>
<b>Optional Information:</b>	
<b>Information to Beneficiary:</b>	

An **IBAN** (International Bank Account Number) is a series of alphanumeric characters that uniquely identifies an account held at a bank anywhere in the world. The IBAN, which includes a country code, a bank code, and a branch and client code, assists in the straight through processing of payments.

The **Bank Identifier Code (BIC)**, is a Bank's SWIFT address. It enables the exact identification of a beneficiary bank and is used alongside the IBAN.

The IBAN field is currently optional, however, for payments sent within the European Union, we strongly recommend that you provide an IBAN for the Beneficiary and a SWIFT BIC for the Beneficiary Bank to facilitate the processing of your payments. If IBAN and BIC details are not provided, payments sent within the European Union could be returned or additional fees may be levied by the Receiving Bank.

The beneficiary's bank is responsible for generating an IBAN and providing it to its customers. The beneficiary's bank can also provide the appropriate SWIFT BIC.

To ensure that the SWIFT BIC is forwarded with your payment instructions, you should use the bank search function and search by the appropriate SWIFT BIC to select the beneficiary bank information for your payment.

## Create Wire Payment Confirmation Page (New)

You will see a new 'Create Wire Payment Confirmation' page.

### Creation Successful.

Wire Payment has been successfully created, Reference # - 7000595.

[Privacy](#) | [Legal](#) | [Security](#)

- When you have finished entering the required information on the 'Create Wire Payment' page, you will click the **Save** button at the top of the page.
- If all required information was entered correctly and if you accept any applicable FX rates (as described previously), the 'Create Wire Payment Confirmation' page will be displayed and a 'Creation Successful' message will appear at the top of the page.
- To enter additional payments, click the **Continue** button or click **Done** if you do not want to enter additional payments.

### **Wire Payment Upload/Download**

The labels to describe our wire payment upload/download functions are changing, but the functionality will be unchanged.

#### **The function:**

Download Wire Payments  
Download Wire Templates  
Upload Wire Payments

#### **Will become:**

Export Wire Payments  
Export Wire Templates  
Import Wire Payments

**If you have any questions, please contact the Customer Service and Support Contact Centre at 1-800-265-5613, Monday to Friday between 8:00 AM - 8:00 PM, Eastern Time.**
